### Complex Traumatic Brain Injury Rehabilitation Research - Clinical Research Award (CTRR-CRA)

**Program:** JPC-8/Clinical and Rehabilitative Medicine Research Program

**Eligibility:** Independent investigators at all academic levels (or equivalent)

**Key Mechanism Elements:**
- Supports applied and translational research to advance the development of knowledge and materiel products for rehabilitation and restoration of function following TBI
- Supported research can include preclinical studies using human subjects or samples and observational or mechanistic clinical research studies
- Clinical trials are not allowed
- Preclinical research using animals is not allowed
- Must address one or more FY18 PH/TBIRP CTRR-CRA Focus Areas
- **Preproposal submission is required; application submission is by invitation only**

**Funding:** Maximum funding of $2.0M for total costs (includes direct and indirect costs) Maximum period of performance is 3 years.

**Submission Deadlines:**
- **Pre-Application (Preproposal):**
  - September 24, 2018 5:00 p.m. Eastern time
- **Application:**
  - December 17, 2018 11:59 p.m. Eastern time

**Grants.gov Funding Opportunity Number:** W81XWH-18-CTRR-CRA

---

### Complex Traumatic Brain Injury Rehabilitation Research - Clinical Trial Award (CTRR-CTA)

**Program:** JPC-8/Clinical and Rehabilitative Medicine Research Program

**Eligibility:** Independent investigators at all academic levels (or equivalent)

**Key Mechanism Elements:**
- Supports small, single-site, Phase I clinical trials to advance the development of knowledge and materiel products for rehabilitation and restoration of function following TBI in Service members, Veterans, and other individuals.
- Interventions should be limited, existing, and manualized. Studies may include seeking to optimize dosing in existing interventions.
- Preclinical studies are not allowed.
- **Preproposal submission is required; application submission is by invitation only**

**Funding:** Maximum funding of $2.0M for total costs (includes direct and indirect costs) Maximum period of performance is 3 years.

**Submission Deadlines:**
- **Pre-Application (Preproposal):**
  - September 24, 2018 5:00 p.m. Eastern time
- **Application:**
  - December 17, 2018 11:59 p.m. Eastern time

**Grants.gov Funding Opportunity Number:** W81XWH-18-CTRR-CTA

| Complex Traumatic Brain Injury Rehabilitation Research - Clinical Trial Development Award (CTRR-CTDA) | JPC-8/Clinical and Rehabilitative Medicine Research Program | Independent investigators at all academic levels (or equivalent)              | • Supports design and development of the necessary research resources that will serve as a foundation for investigator-initiated clinical trials as described above under CTRR-CTA  
• Final supporting studies required for approval of Investigational New Drug Applications/Investigational Device Exemptions (IND/IDE-enabling) are allowed. Other preclinical studies are not allowed  
• Clinical trials are not allowed within the period of performance of the CTRR-CTDA  
• Must address one or more FY18 PH/TBIRP CTRR-CTDA Focus Area  
• Preproposal submission is required; application submission is by invitation only | Maximum funding of $200,000 for total costs (includes direct and indirect costs) Maximum period of performance is 12 months. | Pre-Application (Preproposal): September 24, 2018 5:00 p.m. Eastern time  
Application: December 17, 2018 11:59 p.m. Eastern time |

| FY18 PHTBIRP Joint DoD and VA Long-term Impact of Military-relevant Brain Injury Consortium (LIMBIC) | JPC-6/Combat Casualty Care Research Program and Department of Veterans Affairs | Independent investigators at all academic levels (or equivalent) | • Supports a consortium conducting a single large longitudinal study and supporting sub-studies to analyze a large TBI cohort to include Service members and Veterans.  
• Applicants must be able to demonstrate the ability to enroll relevant cohorts, including military and Veteran populations, and follow them over time  
• Applicants must address the Required Research Elements outlined in the Program Announcement  
• Applications should describe a single large longitudinal cohort study and a minimum of four related sub-studies  
• All projects shall be limited to clinical and epidemiological research.  
• Clinical trials are not supported  
• Coordinating Center and study sites must apply through a single application  
• Preproposal is required; application submission is by invitation only. | Maximum allowable costs (direct and indirect) are $25M via the DoD. Up to an additional $5M per year for 5 years will be provided by the VA to VA sites, depending on availability of funds. Maximum period of performance is 5 years. | Pre-Application (Preproposal): October 8, 2018 5:00 p.m. Eastern time  
Application: January 7, 2019 11:59 p.m. Eastern time |

| Resilience and Readiness Optimization/Enhancement   | JPC-5/Military Operational Medicine Research Program | Independent investigators at all academic levels (or equivalent) | • Supports research with the goal of evaluating evidence-based interventions and techniques to optimize and enhance resilience and readiness designed to:  
  o Accelerate and enhance development of effective teams (e.g., first responders, small teams, and remote/isolated units)  
  o Efficiently strengthen unit cohesion in context of isolated, small teams  
  o Succeed under significant emotional demands using resilience-building techniques, tools, and strategies to enhance emotion regulation | Maximum funding of $2.5M for total costs (includes direct and indirect costs).  
Maximum period of performance is 3 years. | Pre-Application (Letter of Intent):  
October 5, 2018 5:00 p.m. Eastern time
