| Exploration – Hypothesis Development Award | All levels of experience                                                                           | • Supports initial exploration of innovative, untested, potentially groundbreaking concepts in prostate cancer  
• No preliminary data expected  
• Work must be exempt or expedited for human subject or specimens use | $75,000 in direct costs for up to an 18-month performance period, plus indirect costs as appropriate | February 10, 2004  
5:00 p.m. (Eastern time) |
| New Investigator Award                  | • Independent investigators within 6 years of last fellowship or postdoctoral position with access to appropriate research facilities  
• Requires a collaborator with experience in prostate cancer research  
• No previous non-mentored awards in excess of $100,000 in direct costs in aggregate from extramural sources | • Emphasis on innovative ideas and technology  
• Preliminary data not required | $225,000 in direct costs for up to a 3-year performance period, plus indirect costs as appropriate | February 10, 2004  
5:00 p.m. (Eastern time) |
| Idea Development Award                  | • Independent investigators at the level of Assistant Professor or equivalent or above  
• Established investigators in prostate cancer research or in other fields who want to pursue prostate cancer research | • Emphasis on innovative ideas and technology  
• Preliminary data relevant to prostate cancer required  
• Seeking proposals across all areas of laboratory, clinical, behavioral, and epidemiological research, including clinical trials | $375,000 in direct costs for up to a 3-year performance period, plus indirect costs as appropriate | February 10, 2004  
5:00 p.m. (Eastern time) |

</table>
| HBCU Undergraduate Collaborative Summer Training Program Award | Independent investigators at the level of Assistant Professor or equivalent or above                  | • Provides educational/training opportunities in prostate cancer research for HBCU undergraduate students  
• Establishes a relationship between a host institution with a strong prostate cancer research training program and HBCU  
• Attracts talented undergraduate students into careers in prostate cancer research | $200,000 inclusive of direct and indirect costs over a 3-year performance period, including $4,000 stipend per student per summer and up to $25,000 per year for administrative costs | June 15, 2004  
5:00 p.m. (Eastern time) |
| Physician Research Training Award                    | Physicians in the last year of graduate medical education or fellowship, or within 3 years of a faculty appointment | • Prepares physicians for careers in prostate cancer research through a mentored training experience in a laboratory or clinical setting  
• Requires a 3- to 5-year commitment to prostate cancer research  
• Provides salary support to relieve applicants from academic or clinical responsibilities | $140,000 per year inclusive of direct and indirect costs for a minimum performance period of 3 years and a maximum performance period of 5 years; includes up to 50% of PI’s salary and up to 50% of key support person’s salary | June 15, 2004  
5:00 p.m. (Eastern time) |
| HBCU Collaborative Partnership Award                  | Faculty member (with doctoral degree) working at an HBCU                                          | • Fosters collaborations at an institutional level between an HBCU and another institution  
• Provides support for infrastructure and training for HBCU faculty with the goal of establishing a sustained prostate cancer research training program at the HBCU | $600,000 for direct costs for up to a 3-year performance period, plus indirect costs as appropriate | Pre-proposal deadline:  
March 2, 2004  
5:00 p.m. (Eastern time)  
Proposal deadline:  
June 15, 2004  
5:00 p.m. (Eastern time) |
