| **Clinical Trial Award (CTA)**  | • Independent investigators at all academic levels (or equivalent)          | • Supports rapid implementation of clinical trials with the potential to make significant impacts on improving the health and well-being of Service members, Veterans, and other individuals living with limb deficit.  
• Supports clinical trials that evaluate orthotic and/or prosthetic devices using patient-centric outcomes.  
• Proposed projects should be designed to provide outcomes data regarding orthotic and/or prosthetic devices and must include the anticipated effect on patient care metrics.  
• Multidisciplinary collaboration among academia, industry, the military Services, the VA, and other Federal Government agencies is highly encouraged.  
• Applications submitted to the FY19 OPORP CTA must address one or more of the FY19 OPORP Focus Areas.  
• Preclinical research is **not** allowed.                                                                 | The FY19 CTA offers two funding levels:  
**Funding Level 1:**  
• Maximum funding of **$350,000** for total costs (direct costs plus indirect costs)  
• Maximum period of performance is **2 years**  
**Funding Level 2:**  
• Maximum funding of **$2,000,000** for total costs (direct costs plus indirect costs)  
• Maximum period of performance is **4 years**                                                                 | Pre-Application (Letter of Intent):
