

This announcement is to notify the medical research and development (R&D) community of a recently released Fiscal Year 2018 Request for Information (RFI) for the Department of Defense (DoD) Defense Health Program (DHP) Joint Warfighter Medical Research Program (JWMP) managed by the Office of Congressionally Directed Medical Research Programs (CDMRP). This RFI is issued solely for information and planning purposes.

The JWMP provides an opportunity to advance previously-funded DoD or Service medical R&D projects that address the medical requirements of the Services and the Military Health System. The JWMP complements and enhances the DHP by facilitating the further development of promising industry and academic efforts. Each year, a broad spectrum of R&D initiatives are considered for funding under the JWMP.

A detailed description of this RFI and the submission requirements can be found at the following website:
