

FY18 PRARP Survey Questions

Note: For Informational Purposes Only. The Survey has already been administered. Please register on EBRAP.ORG to participate in future Surveys.

- 1) What would be an ideal granting mechanism to accelerate research in TBI-related AD/ADRD (e.g. Translational Research or New-Investigator targeted)?
- 2) What are some of the basic or translational research hurdles needed to understand how TBI becomes AD/ADRD?
- 3) How do we better image or diagnose AD/ADRD in living individuals years after TBI? What would a roadmap for this look like?
